

LCPS' COVID safety measures & precautions are working to prevent COVID spread on our sites

- Alameda County remains in the Purple (soon Red) Tier and our zip codes remain the highest in the County, so wider reopening is not yet possible.
- State and county guidance is clear that even while wider reopening is not allowed, **small cohorts and IEP testing ARE allowed in-person.**
- **We have been bringing students back for IEP testing and limited small cohorts** for students with highest need since early November and are expanding them without any transmission or outbreaks.
- Asymptomatic Testing Data for LCPS suggests **LCPS' COVID safety measures & precautions are working** to detect cases before they can spread and prevent outbreak and transmission at our schools.
